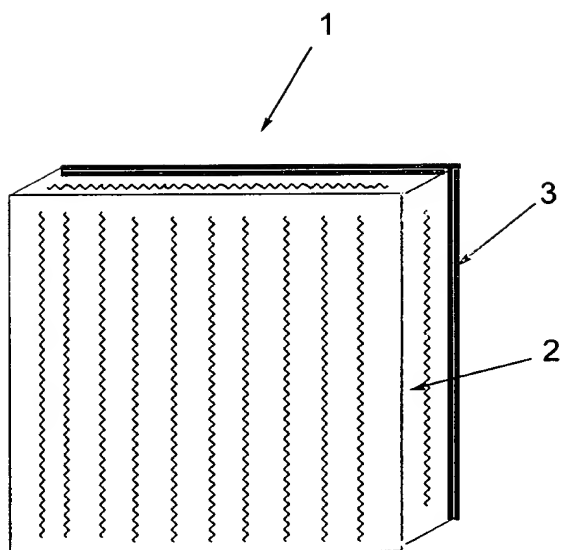

Figure 1

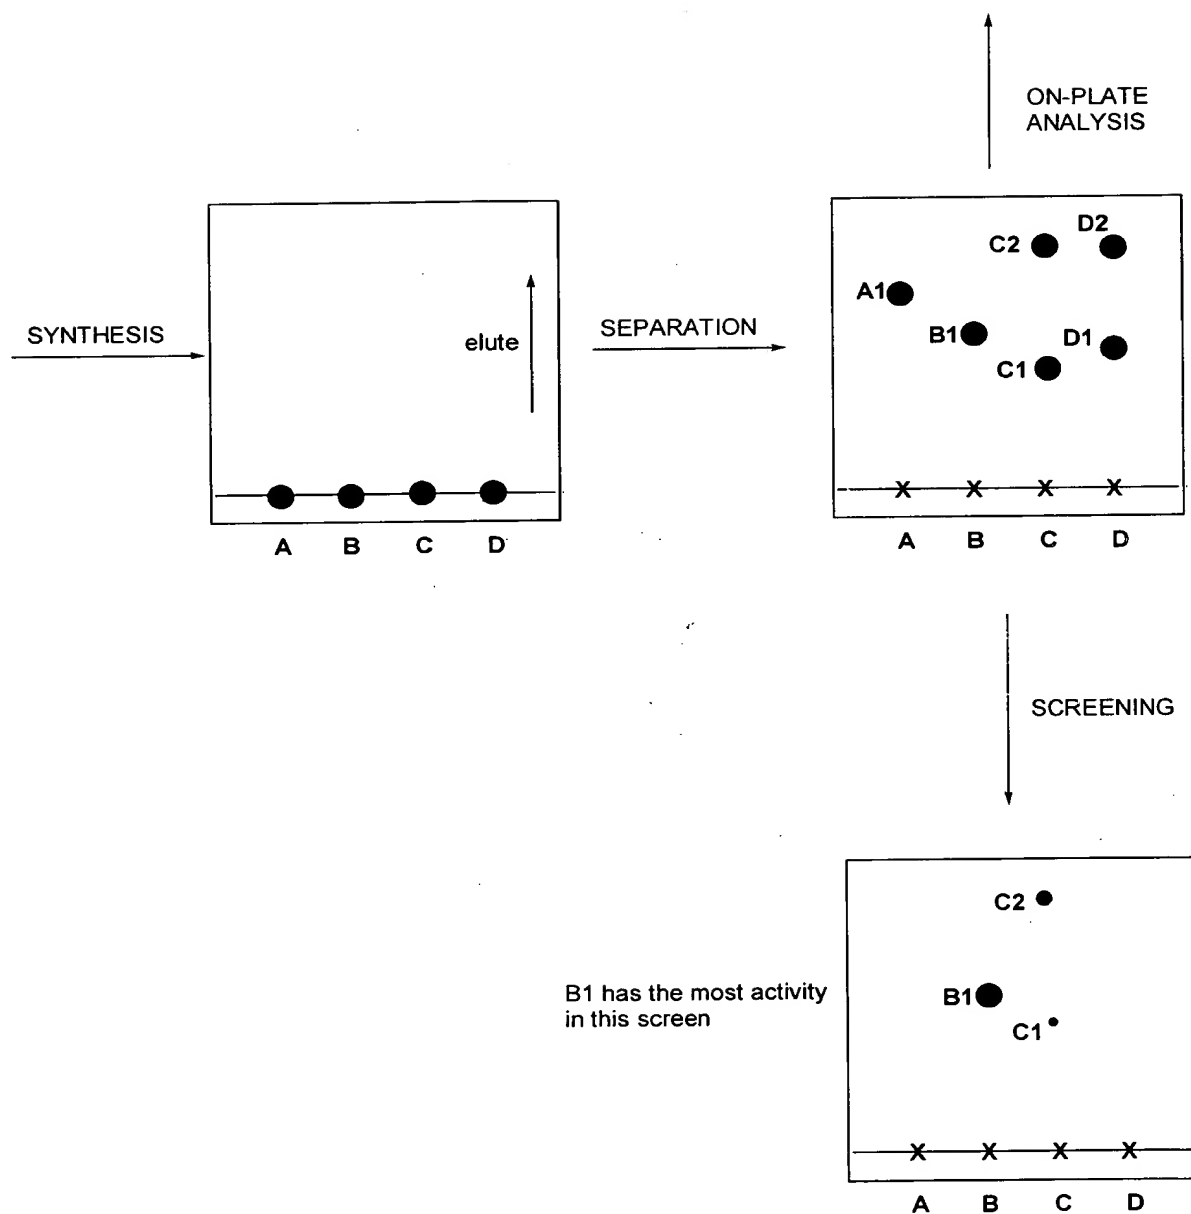

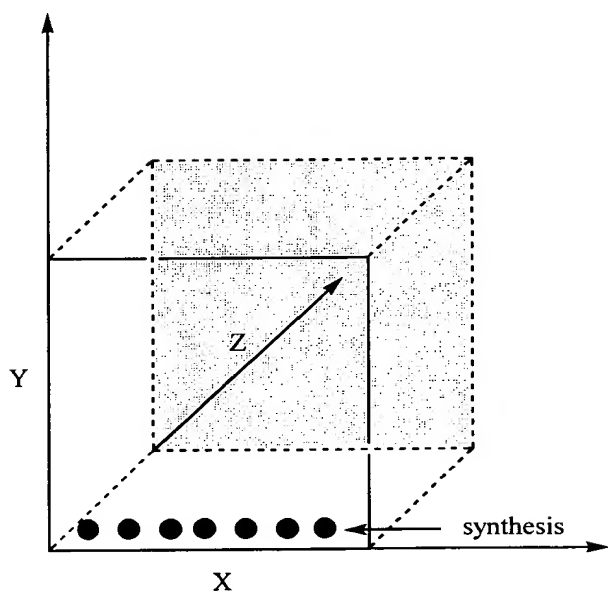

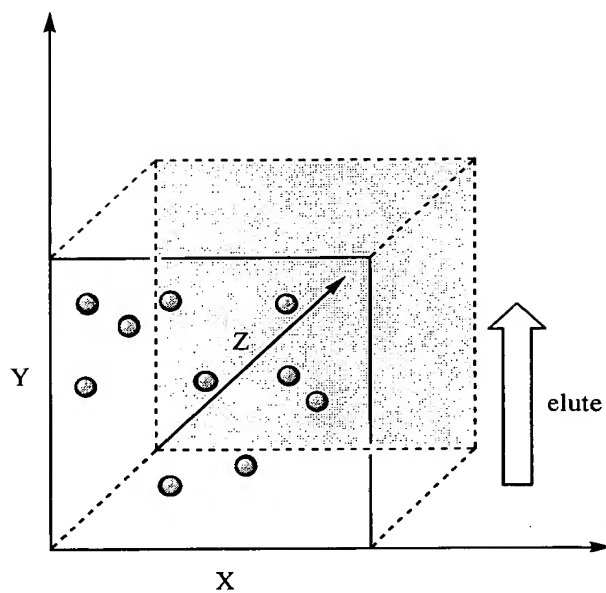

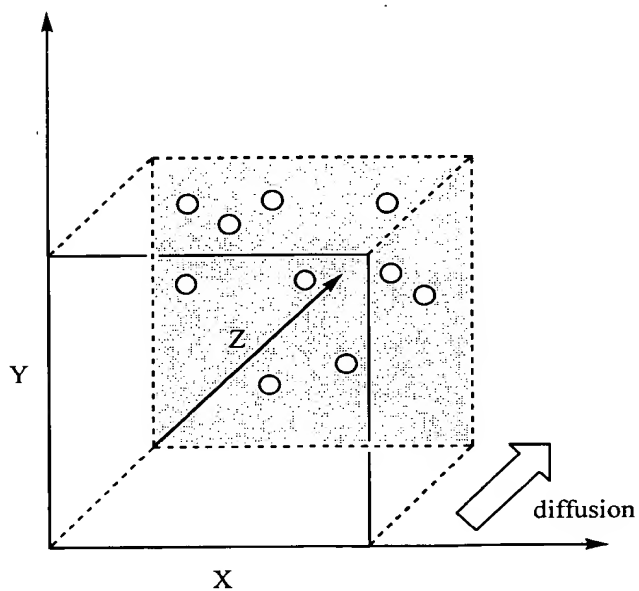

Figure 2

A) Synthesis occurs on the X-axis

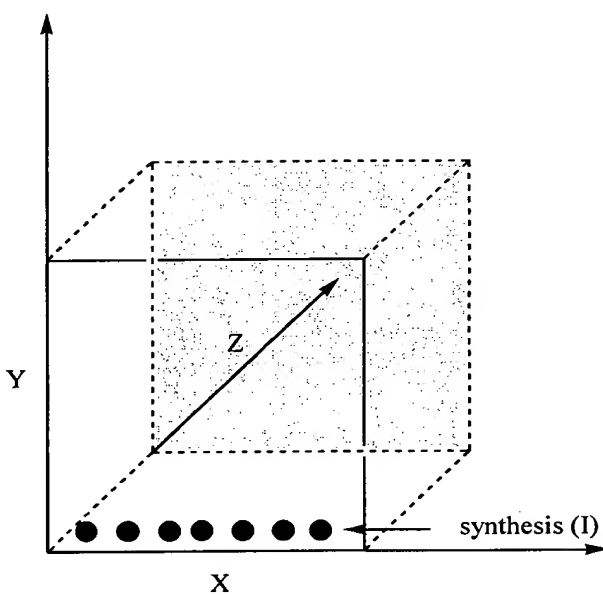

B) Separation occurs on the Y-axis

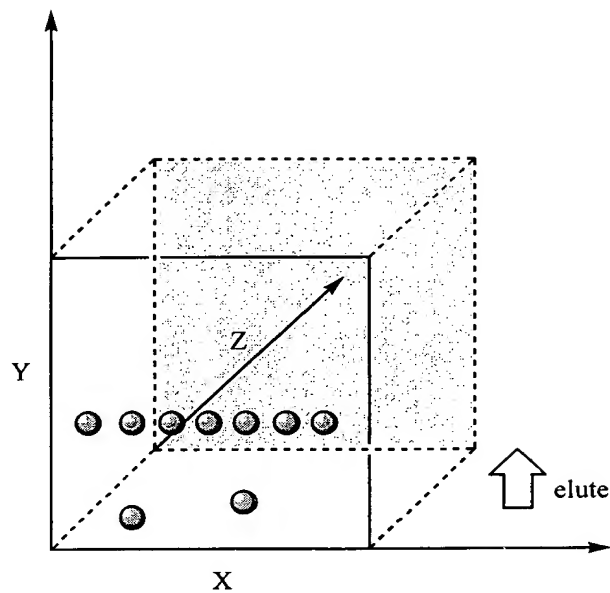

C) Screening occurs via transferral or diffusion through the Z-axis, into or on another plane

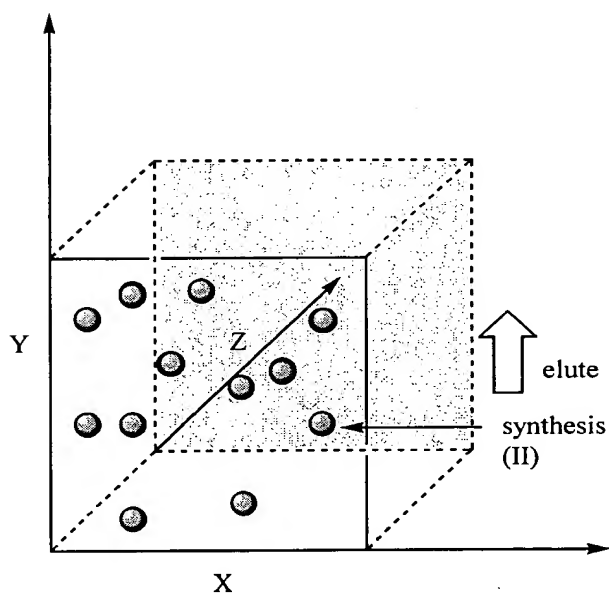

Figure 3

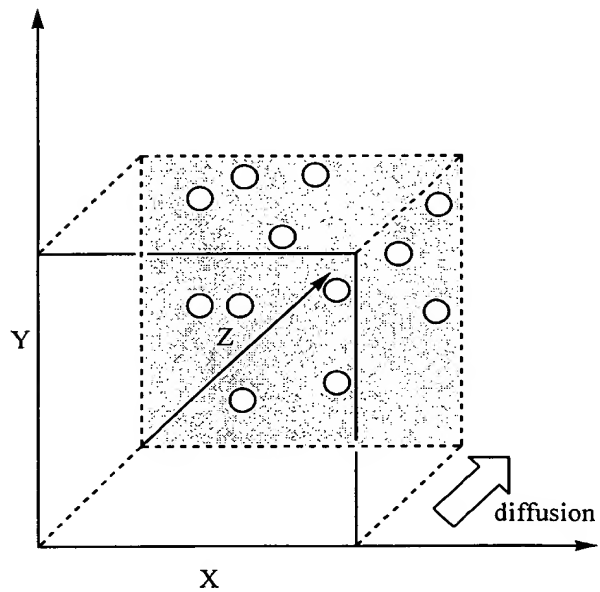

A) Synthesis on X-axis

B) Separation on Y-axis

C) Further synthesis on X-axis,
followed by further separation on Y-axis

D) Screening occurs via transferral or
diffusion through the Z-axis, into or on
another plane
